When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS
TO STANDARD.

Cadiz, 16th—The conduct of the officers of the Rosales in abandoning the crew to their fate is censured here. There was a large and distinguished attendance at the funeral service for the latter. Sailors from the Argentine and other men-of-war also assisted, and part of the garrison of Cadiz. The city paid the expenses. The North American and Argentine squadrons will leave to-morrow for Toulon.

The report that the Admiral Brown and 25 de Mayo abandoned the Rosales is considered to be a calumny.

London, 16th—Mr. Gladstone laid the following list of his Cabinet before the Queen to-day, and she approved it:—

Gladstone—First Lord of the Treasury and Privy Seal
Lord Rosebery—Foreign Affairs
Lord Ripon—Colonies
H. K. Asquith—Home Office
H. C. Bannerman—War
Earl Spencer—Admiralty
W. V. Harcourt—Exchequer
J. Morley, Secretary—Ireland
G O Trevelyan " —Scotland.
A J Mundella—Board of Trade.
H Fowler—Local Government Board
Arnold Morley—Post Master General
A. H Ackland—Education
Earl Kimberley—Secretary India and President of Privy Council
Lord Houghton—Viceroy Ireland.

Labouchere is left out; and he declared this evening that he would move in the House for the evacuation of Egypt.

The new Cabinet has caused a good impression, especially Lord Rosebery's appointment to the Foreign Office, which is a guarantee that the present foreign policy will be adhered to.

(Per Havas Agency.)

Vienna, 16th—Telegrams from Belgrade say that the Servian Cabinet of which M. Patchick is President has collectively resigned.

St. Petersburgh, 16th—Official despatches from the infected districts announce a notable decline in the cholera epidemic.

[*E. Note.* The Havas Agency has sent us also the above list of the new Cabinet, with the addition that Lord Herschell is Lord Chancellor.]

(To the "Prensa".)

London, 15th.—Mr. Gladstone, accompanied by Sir Algernon West, left to-day for Osborne to lay the names of his Cabinet before the Queen. In spite of the persistent rumours that Gladstone is in bad health, he is full of life and vigour.

The new steamer Thracian, recently launched at Greenock, while being towed to Liverpool, turned turtle last night off the Isle of Man in a squall. The tug remained near her till down; but nothing is yet known of the twenty Glasgow workmen who were on board.

While the steamer Arethusa was tugging a torpedo boat the latter ran on her screw and sank at once. Crew saved.

Dublin, 15th —Fifteen thousand people attended a meeting to-day in Phœnix Park, at which Mr. Pierce Mahony demanded that all political prisoners be set at liberty.

Calcutta, 15th.—A meeting will be held on Wednesday to consider the course of the Indian Government in the Silver question.

St. Petersburg, 15th.—The cholera epidemic is declining; and it is hoped to stop its further development by the vigorous sanitary measures that are being adopted.

Buffalo (New York), 15th.—The strike of the signal men on the Erie and Lehigh Valley Railways is assuming serious proportions; and they have set fire to several buildings and 53 cars. The goods traffic is completely stopped.

Paris, 15th.—Dr. Patscheff of Moscow has discovered an infallible cure for cancer by means of sulphur baths. He will report to the Academy of Medical Science soon.

Rome, 15th.—The police have seized the *Osservatore Romano* for an article insulting the Government.

The delegates of the Democratic Associations are working for the abolition of the Catholic religion as that of the State, and the repeal of the guarantees enjoyed by the Pope.

Brussels, 15th.—*Le Patriote* says that the rising of the Arabs in the Congo State is the consequence of the proclamation of a Holy War in Mecca.

THE FUTURE OF URUGUAY.

For some months past we have heard of families leaving Montevideo, to settle in Buenos Ayres, the alleged motive being the enormous cost of living in the former city, owing to the pressure of taxation. We incline to think that the prostration of trade in Montevideo has also something to do with the emigration that is going on; but it is beyond doubt that either or both of these causes are seriously affecting the welfare of the Uruguayan capital.

As regards taxation we shewed yesterday that the incidence per inhabitant is 21 gold dollars in Uruguay, 23 in Buenos Ayres, so that there is no perceptible gain on this head to invite Montevideans to come to our city. The condition of affairs on our side, however, shews undeniable symptoms of improvement, whereas in Montevideo the politico-financial horizon looks blacker every day. There is a general apprehension of Free Banking and an unlimited issue of shimplasters, under the influence of President Herrera's new dogmas.

The President in one of his recent Messages declared that credit was an indefinite multiplier of capital. If that were so Montevideo would possess today a prodigious amount of capital, for the development of credit in one form or other during the years 1889-90 has never been surpassed in a city of its size. Credit certainly produced results wholly unanticipated, causing such an inflation of values as necessarily resulted in an appalling crisis. Any fresh efforts by Pres. Herrera on a credit basis will intensify the evils from which Uruguay is now suffering.

Is there, then, no remedy? If Dr. Herrera be unable to cure the crisis where is relief to be looked for? Experience shews that the best remedy for a crisis is to let matters take their natural course. Financial quacks only aggravate misfortunes. The increase of taxation in Uruguay is at the bottom of the trade depression and other evils that are now felt, and the first effort towards improvement must be to reduce the import-duties. Patience and economy will do the rest.

LATEST FROM CHILE.

Valparaiso, July 30.

The epidemic of influenza is rapidly declining here, and it is probable that in a few days it will have nearly, if not quite, disappeared. In Santiago it is still very prevalent, and the death rate in consequence is abnormally high. It is also spreading in the north and south of the Republic, and the probalities seem to be that no nook or corner in the country will escape the visitation.

To the long list of victims who have succumbed to the epidemic there remains to be added the name of the Peruvian Minister, don Manuel Maria Rivas, who died in Santiago on Wednesday. The body has been embalmed and the cost of the funeral will be defrayed by the Government. Military honours due to the rank of a general of a division will be paid.

The drought in these latitudes still continues, and the weather is of the most unseasonable character that has been experienced for years, and the public health is suffering greatly in consequence. Sowing operations have been much retarded, and owing to the want of rain there is a great scarcity of grass on many farms, and diseases of several kinds, accompanied by great mortality, have broken out among the cattle.

Accidents continue to occur with alarming frequency on the State Railways, but for political reasons no changes have been made in the management, which is about as bad as can be. The lines and rolling stock, specially the latter, are in a deplorable condition, and very soon, unless a radical change be made, there will hardly remain a single locomotive in running order.

News has been received here of the death of H. B. James, Esq., F. Z. S., formerly of the Salinas, Viña del Mar.

The deceased gentleman was senior partner of the firm of Messrs. James, Inglis & Co., of Valparaiso and Iquique, and brother of Frank James, Esq., of this city. A few years ago the late Mr. James delivered a very interesting lecture on Chilian entomology, and he published a classification of the birds of the country.

At the invitation of the President, Mr. Agustin Ross, has had an interview with the Minister of Finance, on the condition of the national finances. We are glad of it, for nobody is better qualified to speak authoritatively on this subject than Mr. Ross.

The American steamer Mineola is expected to arrive here on Monday or Tuesday and will discharge 1,200 to 1,500 tons of cargo into hulks, preparatory to repairing damages to her screw, sustained in entering Coronel.

Brigandage is still very prevalent in nearly all parts of the agricultural zone, but the measures adopted for its repression are beginning to tell, and in a short time more it may be expected to die out.

Exchange has improved considerably since the presentation to Congress of the Government measures. Yesterday sales were made at 19d., and it is expected that it will go on improving until it reaches 24d.

A canoe made of rush, of the kind used on lake Titicaca, was passed though Callao custom-house on the 13th instant, for shipment to the United States for exhibition at the World's Fair in Chicago.

An English syndicate has purchased from Mr. Henry Harrison of Oruro, his silver mines at Hvanuni for the sum of 250,000 Bolivian dollars.

Mr. Bernard Eichelman has been appointed Chilian vice-consul in Chicago.

The *Ferro-Carril* of Santiago says that on the 24th and 25th inst. there were registered in the three circumscriptions into which the city is divided 117 deaths; on the 26th there were registered in the second and third circumscriptions alone 55 deaths. The greater number of the deaths is attributed to influenza.

The death of doña Transito Flores at the age of 120 years was registered on Tuesday.

At the invitation of the Intendente several well known gentlemen have formed themselves into committees for the purpose of collecting subscriptions for a banquet to be given in honour of Mr. Agustin Ross, in recognition of the great services he rendered to the Constitutional cause.

During the past few days several persons practising as dentists without being in possession of a diploma from the University, have been ordered to remove their door plates, and to abstain from practising, under severe penalties.

By the 18th instant Iquique was completely infected with the influenza, and rare indeed was the house without one or more cases, but happily the attacks were of a benignant character. The vessels of the Evolutionary Squadron were also invaded, and many officers and men were down with the complaint

Advices from Collipulli state that several times lately the 6 p.m. passenger train from this town to Victoria has been fired at when passing a spot called Pailahueque, but fortunately none of the shots took effect on either occasion. The shots in each case have been aimed at the driver. A picket of soldiers was put on the train, and the bandits then directed their shots at the troops, but without hitting anybody. A posse of cavalry was to be sent to scour the country round about Pailahueque, and it is to be hoped that the wretched miscreants may be trapped.—*Chilian Times.*

PARAGUAY.

Asuncion, 2nd Aug.

Last week the British Consul, Dr. Stewart, paid a visit to the new Irish colony at Caasapá, and found the colonists doing well. He thinks, however, that French and German settlers are better suited for the country: they are mostly of a superior class, and express themselves much pleased with the climate and surroundings. In some interviews between the Consul and the Government the former impressed on the Minister the expediency of omitting no effort to make the Caasapá colony a success. Meantime it is well for English or Irish emigrants to be slow about settling in Paraguay.

The Minister of Foreign Relations here asked the British Consul on the 27th ult., what was the meaning of the Paraguay Central Railway Co. habitually hoisting the British flag on the Central Station of Asuncion. The Representatives of other countries have also expressed their dis-satisfaction at the practice, and H. B. M's. Consul requested the company to discontinue it; but in spite of this the flag was hoisted as usual on Sunday. The Railway Station is one of the principal public buildings in one of the most conspicuous places of the Capital, and the Government naturally enquired what was the meaning of the British flag hoisted in front of the manager's door, while the Paraguayan flag was flying from the tower.

There is no doubt that the Railway Co. and the Anglo-Paraguayan Land Co. have been trying to supersede the Consul. A petition to the Foreign Office against the Consul purporting to be signed by a few British subjects in Paraguay and who aspire advancement in the service of these Companies, as well as the presumptuous conduct of the Railway manager in usurping the position of H. B. M's. Consul on the last Queen's Brithday shews too clearly how matters are.

LATEST FROM MONTEVIDEO.

Monday.

To-day being a holiday, all the public offices were closed and Uruguayan rulers indulged in a well-earned repose. The only news of importance comes from Rivera. It appears that the inhabitants there know for certain that the Brazilians are rapidly arming on the frontier. Rio Grande is in a condition of pronounced political effervescence No business is possible, and the results is that business people are daily leaving that province. General Isidoro, the Brazilian commander, entertained the Uruguayan General, Garcia, at a banquet.

In regard to the alleged cruelties committed by the police in the Escuela de Artes y Oficios, it appears that no less than eleven boys were barbarously treated.

It is said that the policemen got the boys into the billiard-room, locked the door, and then began belaboring them with cues. The screams of the boys roused considerable alarm. One of the boys, it is said, was suffering from small-pox. He had been taken out of the Infirmary and flogged with the others.

Dr. José Maria Montero died to-day in the Hotel Bordeaux. The deceased gentleman occupied many important public posts and was connected with many of the leading families here.

The Rio Grandense refugees here yesterday visited the Foreign Affairs Minister to protest against the steps which the Brazilian Government is taking to have them imprisoned.

It is stated that the Government is negotiating with the London Bank for the starting of a bank of issue.

The Casino Uruguayo of Maldonado are organizing an entertainment in honor of the officers of the Argentine squadron.

Tuesday Evening.

It is said that some financial surprises are in store for us.

Government has decided to reduce the staff and curtail the expenditure of the National Bank.

The Oficina de Credito has begun calling in the provisional bonds of the Consolidated Debt of Uruguay.

PROVINCIAL NEWS.

A letter from the Frank Colony, Santa Fé, states that the settlers there are completely at the mercy of the bandits, who now infest the colonies. The latest outrage is thus related:—Three ruffianly looking gauchos got down at a 'pulperia' and called for drinks. When the moment came for paying, they handed the 'pulpero' a draft on the Carabassa Bank for 100 dollars and wanted him to discount it. The man was very much surprised at this unusual mode of payment and he sent word to the Juez de Paz. This dignitary, being sick in bed sent a friend of his to look at the draft and the gauchos. The latter were beginning to feel uneasy and one of them pulled out some money to pay, while the other two drawing their long knifes stood at the door, where several settlers were quietly chatting. As soon as the amount was settled, one of the gauchos buried his knife in one unfortunate settler who immediately fell to the ground. The three then rushed to their horses and in the twinkling of an eye were galloping down the street. The companions of the wounded settlers fired at them, but failed to hit any of them. This is the sort of thing which keeps the hard working settlers in an unceasing state of alarm and anxiety. The police appear to be powerless and robberies and outrages of every kind go unpunished

Our Rosario contemporary, the *Capital*, calls attention to the fact Santa Fe is the Province that has given rise to the largest number of diplomatic reclamations, a fact, by the way, to which the Duke of Licignano, the Italian Minister, recently called the attention of Dr. Galvez. It is a good thing that our provinces are not allowed to have foreign affairs ministers. We have already alluded to the latest cause for diplomatic interference—the outrages in Rafaela. These were, it appears, perpetrated by policemen and the victims were Italian subjects. Policemen, as a rule are wild-mannered men, at least in Santa Fé, and possibly it is from a fear of hurting the feelings of others that they so rarely arrest criminals.

Telegrams from Villaguay state that Mr. Guillermo Norman, a well-known and respected resident, has been imprisoned for the third time for refusing to knock down the fence of a 'quinta' which he has now held for seven years and which a third party now claims. Mr. Norman's real offence is that he recently voted against the wishes of the Intendente — "pueblo chico, infierno grande" as the proverb says.

LATEST FROM AUSTRALIA.

The Victorian Government appear to have had considerable trouble with the associated banks in relation to the loan just floated. In the course of an interview Sir Graham Berry stated that it would probably be necessary to impose an income-tax. He gave it as his opinion that the action of the associated banks had affeted the floating of the associated banks had affected the floating of the loan in London. It appears that a few days ago he heard a rumour that the London representatives of the associated banks intended to refrain from tendering for any portion of the £2,000,000 offered. Inquiries instituted locally revealed the fact that the associated banks were unwilling to renew their expiring agreement with regard to the Government account unless some change were made in the rate of interest payable on the advances made to the Government by the banks from time to time, The chief alteration which the banks required in their former agreement was regarding the power of the Government to call upon them to supply money in London at short notice. The new agreement was ultimately signed.

The revenue of Victoria for the year just ended amounted to £7,728,000, being a decrease of £614,000 as compared with the previous year.

The revenue of South Australia for the past year amounted to £2,740,000, being an increase of £10,000 as compared with the previous year.

In the course of a public address the Premier of Queensland, Sir Samuel Griffith, said that the people of that colony must look forward to a still more rigid 'régime' of public economy. The colony possessed sufficient resources to find work for the whole population provided that the latter recognized that the workers were only entitled to a fair share of the joint product of labour and capital. As a matter of fact, there was a gigantic strike throughout the country, and men would not work at all if they had to work at reduced wages. The attitude of some of the Labour party was very nearly analogous to that of the Nihilists, whose mission was not to amend, but to destroy.

The members of the Presbyterian mission to the New Hebrides, consisting of 17 missionaries, have decided to forward a protest to Lord Knutsford against the proposed renewal of the importation of Kanaka labour into Queensland. They affirm that the traffic cannot be carried on with justice to the natives or with honour to the British nation.

The miners at Broken Hill have struck work, owing to the decision of the companies to introduce the system of contract labour. Altogether 5,000 men are idle. The directors of the various mines, who are acting in concert, decline altogether to entertain the idea of arbitration. The miners appear determined to go to any lengths to obstruct the employment of non-unionists, and are carrying out the picket system with great thoroughness. Following so quickly on the water famine, the strike is certain to cause very serious distress.

Mr. Ballance has delivered his Budget statement for New Zealand. The revenue for the past year shows a total of £4,448,000; leaving a surplus of £165,000, after paying £100,000 off the floating debt.

The Treasurer announced that it was intended to establish two State farms for the relief of the unemployed on the co-operative system, which has been applied with so much success to the execution of ordinary public works.

Her Majesty's ship Curacoa has visited the Gardner, Danger, and Nassau Islands in the Western Pacific, and has proclaimed a British protectorate over each group.—*Exchange.*

THE CHIGNECTO SHIP RAILWAY.

The Chignecto Ship Railway is approaching completion. This railway is to be 17 miles long, connecting the Bay of Fundy with the Gulf of St. Lawrence, Ships of 1,000 tons register, with maximum measurements of 235 feet length, 56 feet width and 15 feet draught and 2,000 tons displacement will be accommodated. The modus operandi will be somewhat as follows: The ship will be towed into the protected harbor basin, placed upon the cradle, on which it is to be transported over the railway, and hoisted to the level of the track by huge hydraulic lifts. On the cradle the vessel will be supported by blocking, somewhat after the system of blocking now employed in dry docks. Large and powerful locomotives will then haul the cradle to the other end of the line, where the ship will be lowered into the sea. The hoisting of a loaded vessel by hydraulic lifts will not be an experiment, for it has been applied with perfect success at the Victoria Docks at London for thirty years. The only questions to be solved, therefore, are such as naturally arise regarding blocking and the strains to which the vessel will be subjected while being hauled on the cradle from one end of the line to the other. In regard to strains, it has been asserted by experienced engineers that these will be no greater than those which vessels now experience in storms upon the high seas.

About $3,500,000 have already been expended upon the work, and it is estimated by the engineer in charge that $1,500 000 more will be amply sufficient to finish it, besides supplying rolling stock and laying aside a sufficient sum to pay interest on capital and administrative expenses. The hydraulic machinery has been delivered; the whole line, with the exception of about a mile of broken ground, has been graded and ballasted with broken stone, and 12 miles of track have been laid. The most important parts of the remaining work are the masonry work and the gate at the Bay of Fundy end of the line, and the masonry of the two lifting docks. Now that the work broken off last summer, in consequence of a tack of funds, has been resumed, it will not take long before the railway will be ready for operation.

The Chignecto Ship Railway, if it proves successful, will give a great impetus to the development of intercolonial trade. At present the only means of access by sea to the ports on the Bay of Fundy is the dangerous passage of about 600 miles around Nova Scotia. By the ship railway the distance from St. John to Montreal will be 500 miles shorter than the present route.

No better place could have been selected for testing the practicability of a ship railway. The line is a short one, over one-half of it is perfectly level, and the grades on the other half will not be over ten feet per mile, and, finally, the whole experiment will not cost more than $3,000,000. The world can well afford to expend this much to test an enterprise which is so full of promise.

Should the Chignecto Ship Railway prove a success it will give a great impetus to the building of others in all parts of the world. Indeed, several are now projected in England and other countries, and in the end it may be found more advisable, and it certainly would be much cheaper, to connect the Atlantic and the Pacific by ship railways instead of ship canals across Mexico and Central America.—*N. American Exchange.*

RAILWAY ITEMS.

The Inspector-General has approved the plans of the proposed improvements in the North East Argentine Workshops in Corrientes. He has likewise approved the plans presented by the Central Argentine for improving the stations at Garin and Telaza.

Mr. Juan Levalle has brought an action against the Pacific Railway Co. for $50,000. It appears that Mr. Levalle had his legs broken in the accident which occurred in May last on that line near the Mattaldi Distillery. Our readers may remember that the engine, which was travelling with the tender in front, was thrown off the track by an animal. It is argued that the accident would not have occurred had the engine been in its proper position.

The traffic returns of the East Argentine in May compare as follow:—

	1891.	1892.
	$	$
Gross returns	11,029	14,268
Working expenses	9,948	9,753
Net.....	1,081	2,515

The traffic returns of the Argentine Great Western in June last compare thus:

	1891.	1892.
	$	$
Gross returns.....	234,271	233,873
Working expenses..	210,203	166,817
Net.....	24,068	67,056

The traffic returns of the Transandine Railway in May compare as follow:—

	1891.	1892.
	$	$
Gross returns.....	46,916	7,070
Working expenses...	22,313	25,848

This startling difference is due to the extraordinary expense involved in conveying Chilian navvies. Last year there was a net profit of $24,600 in May, and in the corresponding period this year there was a loss of $18,700.

The traffic returns of the Oeste Santafecino during the first half of the current year compare as follow:—

	1891.	1892.
	$	$
Gross returns.....	196,153	627,881
Working expenses :	280,863	348,550

This shews a net earning of $279,331 against a loss $84,710 in the first half of last year.

The Central Argentine and Rosario Railways have begun again to quarrel about the crossing at San Fernando. The N. R. Board advises the Home Minister to invite the representatives of the two companies to meet in the Home Office and thus endeavour to arrive at an amicable arrangement.

We take the following from Saturday's *R. News:*—

The receipts of the seven principal Argentine railways published this week, amount to £49,451, in comparison with £37,309 for the corresponding week of 1891, being an increase of £12,142. or 32·5 per cent in 1892.

The mileage open to traffic on revenue account was 3,633 in 1891 against 4,013 in 1892, an increase of 380 miles, or 10·5 per cent for the present year.

The average receipts per mile for the week were £10, 5s. 1d. in 1891, against £12 6s. 5d. in 1892, an improvement for the latter year of £2 1s. 4d. or 20 per cent.

Approximately the £ sterling was worth $20.30 in 1891, compared with $16.50 in 1892, the appreciation in currency this year being equal to 23 per cent.

The increase of 32.5 per cent in gross earnings for the week is due, to the extent of 23 per cent, to the higher value of currency, and 9.5 per cent to increased traffic. The higher earnings of 20 per cent per mile are more than covered by the appreciation of 23 per cent in the currency. Had the currency represented the same gold value this year as last, the earnings per mile of line would be 3 per cent less this year on 10·5 per cent higher mileage. Although the week is not quite as good as some preceding weeks, it shows a decided advance on 1891.

The twenty-first ordinary general meeting of the East Argentine Railway Company was held at Winchester House, on July 8, Mr. W. Noble in the chair. The director's report showed that the traffic receipts of the railway for the year 1891 amounted to £23,700 as against £38,875 for the previous year. There was a loss on the year's working of £2,306. The line, in common with all other Argentine railways, has suffered from the prevailing depression in the country, one of the causes being the gold premium, which fluctuated from 201 to 361 per cent. As the company's accounts had to be reduced to a gold basis, the receipts, when converted into gold, gave a very poor result. A cheering feature in the year's work was that the line had at last begun to develop the agricultural industry of the surrounding country. The directors had been unable, as yet, to obtain payment from the Argentine Government of the balance of £17,697, being the arrears of the guarantees up to December, 1889. They had received from the Government £64,688 in bonds of the new Funding Loan, stated to be in satisfaction of the company's claim of £67,517 in respect of the guarantee for 1870. These bonds were valued and credited to the Government at £42,047, being 65 per cent. of their par value, the nominal price of the bonds at the date of their receipt. The directors had protested against the payments being made otherwise than in cash, or in cash value, and they had claimed to be paid the loss resulting from the action of the Argentine Government. In the meantime the directors had made reserves in their accounts to cover the consequent deficiency. The Chairman, in moving the adoption of the report, said the year 1891 had been a hard one for all the Argentine railways. A larger number of railway enterprises had been encouraged and fostered by the Argentine Government than the country could support, and the consequence was that the paper currency had fallen very considerably. The speculation craze in the country had come to an end, and the year 1891 was the worst year the company had ever seen or was likely to see. The report was adopted, as was also a resolution recording a protest on the part of the shareholders against the action of the Argentine Government in paying off the guarantee in paper instead of in gold.

CONGRESS.

THE SENATE.

General Roca presided at yesterday's sitting.

A Message was received from the Executive asking for $25,000 for vaccination purposes.

Senator Guemes moved that the reports of the Interior Committee on the creation of a General, Land Immigation and Agriculture Office, and the reconstruction of the Argentine Pavilion be returned to said Committee. Agreed to.

Senator Guiñazu moved that priority might be given to the revision of the grant of 60,000$ gold to the Municipality of Cordoba for a statue to Velez Sarsfield.

Senator Tagle moved that the Bill be approved as sanctioned by the Deputies. The House agreed without discussion.

On hearing the report of the Legislation Committee on the Bill of Senators Varela and Figueroa reforming the Pension Law, it was passed as advised by the Committee. The House adjourned at 4.45.

THE BEARING REIN

Mr. Editor,

In this morning's STANDARD I read Visitor's letter about the bearing rein.

There are a pair of beautiful chestnuts here that are driven without that rein, and the free and pretty way they step along has been much noticed.

Another Visitor.

EDITOR'S TABLE.

The was a general howl in commercial circles yesterday because there was no steamer from Montevideo and consequently no mails from Europe. The mails and passengers by the Liguria had to stop a day in the Mount, much against the latter's will. The river steamer service is badly arranged. The Platense and opposition boats ought to run on alternate days. It would be much better for both, and for the public.

The ball at Quilmes on Monday night was like the B. H. Bazaar, "un succés eclatant". The room was full of pretty girls, the music good, the supper excellent, and the whole thing as enjoyable as it it could possibly be.

Yesterday 84 births, 37 deaths and 15 marriages were registered.

The time for paying Contribucion Directa has been extended to the 31st inst.

Government has authorized the Bateman Legacy Commissioners to build works to protect the precious syphon across the Riachuelo. It has also approved some plans of the Transandine Railway between kils. 132 and 136.

Those of our readers who wish to hear a lecture in Spanish should go to the English Literary Society to-night, when Dr. Hugo Marcus will give his opinion on "Nuestro siglo nervioso".

This is what we read in a recent number of the *Financial Times*:—"There was no gold quotation from Buenos Ayres yesterday, owing to an extraordinary church holiday in that extraordinary country."

We have gone back to our first telegraphic love, Havas; so our readers will have more fresh telegrams to whet their voracity at breakfast every morning.

Rivadavia's victory at Palermo on Monday is another feather in the cap of the Casey Stud.

The ever-green Belle Helene attracts crowds at the S. Martin Theatre: we doubt much if poor Offenbach would recognize some of his verses, for our Italian jettatura has turned Agammemnon into a typical Britisher—at least the ideal entertained on the continent—and Menelaus into a telephonist. We suggest that Signor Tomba should deck out Achilles in 'poncho, chiripa' and 'botas de potro'. The decorations, costumes and arrangements of the popular Italian company are simply perfect. Madame Ada Verger will make her debut tonight in Crispino e la Comadre. She is a great artiste.

The following are the principal prizes in the Montevideo Lottery drawn yesterday: 8679, 20,000; 6574, 1000; 10454, 2657, 500 each; 6594, 8703 1289, 200 each; 8066, 2162, 2578, 9970, 10042, 2137, 9566, 100 each.

At last the public are to have decent meat. All who can should patronize the Buenos Ayres Meat Supply Company, of which our old friend, Mr. E. Casey, is President. Families will save from twenty to fifty per cent by doing so, as one sirloin or leg of mutton bought there will go as far as three of the wretched, flabby articles the butchers now supply. The meat is specially fattened and scientifically slaughtered on the grazing grounds in the camp, and sent into town in frigorific cars. We wish the new Company the best success; and if well managed, it ought to smash half the private butchers in town and suburbs: the unblushing extortion of these fellows makes their daily victims choke with indignation.

Mr. Gibson, who has been twenty-one years with Mr. Torres, well known chemist and druggist, Calle Defensa, and fourteen years as partner lately of Gibson, Roloof y Cia., has dissolved partnership and removed to the corner of Defensa and Alsina: shop fitted up with good taste and every modern improvement. Competent staff to secure the correct preparation of Doctors' prescriptions.

Telegrams were received yesterday announcing a fresh political scrimmage in that poor but deserving province Jujuy. Of course a newpaper office was sacked. There can be no properly constituted scrimmage in the provinces unless an editor's skull be cracked or his office reduced to mince "pie"

"Grandes novedades financieras," elaborated by President Herrera, are announced to make their debut in Montevideo in a day or two. The President is well and unfavourably known as a manufacturer of financial novelties. There is much dread that one of the coming novelties is the shinplaster.

We regret to learn that Mr. Patrick Galbraith is seriously ill at the Santa Isabel estancia a few leagues south of Concordia.

The *Uruguay News* says:—

"We sincerely regret to chronicle the death of Mr. Thomas Kirkland, which took place in Sao Paulo, a telegram conveying the sad news reaching the here last Monday. Mr. Kirkland who was employed for many years in the Gas Works of Rio Janeiro and this city, lately held an important post in a commercial house in Santos, where he will be greatly missed, being, as he was, a most reliable and hardworking man. He leaves a young widow and two little children to whom we tender our sinceres sympathy.

"The news comes from Paysandu that Mr. William Stirling, whose estancia is in that neighborhood, has met with an accident. His horse fell with him and in getting up trod on his chest. Dr. French is attending him. We wish him a speedy recovery."

We have received, we presume by mistake, a telegram directed to Count Gaetano Pocci, Rome. Perhaps our esteemed Italian colleagues can help us out of the difficulty: or the Post Office.

The M. V. T. "tiene la palabra" in reference to the visit of the Montevidean team to this city:—

"With regard to the alleged resistence of the Committee of the M. V. Polo Club to the proposed games at Buenos Ayres we are informed that the Committee had no intention at all of stopping the games, they merely wished that the players going from here should not go as representatives of the Club nor wear the Club colours. Beyond this they had neither wish nor right to interfere with the individual action of the players. There has evidently been some regrettable misunderstanding over the matter."

The London papers last to hand announce that, in reward of the conspicuous bravery displayed by them during the recent operations in the Hunza and Nagar Country on the Gilgit frontier in December, 1891, Captain Fenton John Aylmer, of the Royal Engineers, and Lieutenants G. H. Boisragon and John Manners Smith, of the Indian Staff Corps are to have that prize which every British soldier has in his mind's eye when he first dons the glorious red coat—the Victoria Cross.

The long-felt want appears to be growing longer and more felt than ever. Nearly all our colleagues in the E. B. appeared as usual yesterday morning.

A cask of "aguardiente" exploded on Monday in Mr. Torres's "almacen" in Belgrano and the place took fire. The lodgers in the upper story got so frightened that they flung all their furniture into the street. The blaze was mastered in five minutes, and the grocer's loss was only $500; but the frightened geese upstairs destroyed $7,000 worth of their own furniture by throwing it from the windows.

We are glad to learn that Don Eduardo Costa, ex-Minister of Foreign Affairs is now quite well. He attributes his recovery to Gladstone's victory; had the Tories whon he would be still in bed.

The *Nacion* has fallen into an error in its remarks on the new Gladstone Cabinet. The First Lord of the Treasury is not the Finance Minister. The latter we call Chancellor of the Exchequer, and the two posts are quite distinct.

The *Matin* of Paris makes a wretched attempt at Spanish. It calls the cruiser 25 de Mayo, "Venite cuico." Perhaps it meant to salute the war-ship in "Latin de cuisine" by telling it to "come quick."

Lord Rosebery evidently sees dirty weather ahead an the troubled sea of European politics, or he would not hesitate so much about taking charge of the Foreign Office.

We stick to our previous assertion that the real *Unloader* has not entered the Editorial Bus yet; but we hope to be making room for him to sit beside us before we get outside of our quantum of Christmas Plum-Pudding.

The total of the Rosales Fund—not for the widows and orphans, but for a new ship—has now reached $515,851⅞.

In reference to the item about railway trains published in yesterday's issue, an esteemed American Cousin visited us yesterday, took off his hat, put on his spectacles, sat down and said:—"The heaviest train ever hauled by one locomotive was one of 90 coal waggons, weighing with their load 3,102 gross tons. It was drawn over the Reading Railroad from Schuykill Haven to Philadelphia, a distance of 89 miles, by a consolidation locomotive weighing 70 gross tons, with cylinders 22 x 28 inches, 8 driving wheels and a bissel truck. The tender of the locomotive weighed about 30 gross, tons and both these weights added to that of the train, give a total of 3262 tons. A number of locomotives like the above are used in working the coal traffic of the Reading."

We were reminded on Monday of our old acquaintance Mr. Enault, who used to keep his gilt chariot in Standard Court, Calle San Martin, in the good old days when the STANDARD gong was wont to call the citizens in thousands to read our bulletins of the Franco-German war, and we had 70,000 ounces under our feet every day in the week. An enormous crowd at the South Docks on Monday surrounded a carriage in which stood an itinerant dentist proclaiming the virtues of a cure for toothache. One greenhorn stepped into the carriage to have a tooth drawn. The pincers was in his mouth; a tug, two tugs, three! when a yell like a railway whistle rent the air, and the patient jumped from the coach and ran for his life, howling with agony: Mr. Enault's successor had broken the tooth in his jaw, without extracting it.

A paper in Cincinnati was very much given to "high-falutin" on the subject of "this great country," until a rival paper somewhat modified its continual bounce with the following burlesque:—"This is a glorious country! It has longer rivers and more of them, and they are muddier and deeper, and run faster, and rise higher, and make more noise, and fall lower, and do more damage than any body else's river. It has more lakes, and they are bigger, deeper, and clearer, and wetter than those of any other country. Our railcars are bigger, and run faster, and pitch off the track oftener, and kill more people than all other railcars in this and every other country. Our steamboats carry bigger loads, are longer and broader, burst their boilers oftener, and send up their passengers higher, and the captains swear harder than steamboat captains in any other country. Our men are bigger, and longer and thicker, can fight harder and faster, drink more bad whiskey and chew more bad tobacco, than those of any other country. Our ladies are richer, prettier, dress finer, spend more money, break more hearts, wear bigger, hoops, shorter dresses, and kick up generally to a greater extent than all other ladies in all other countries. Our children squall louder, grow faster, get too expansive for their pantaloons, and become twenty years old sooner by some months than any other children of any country on the earth."

Two ladies at a Richmond tea-party got quarrelling about their respective ages. At last, to end the dispute, one of them said, in a conciliatory tone of voice:—"Don't let us quarrel over the matter any more, dear. I never knew who my mother was, for she deserted me when I was a baby; and who knows but that 'you' may have been that heartless parent!"

"For want of a nail the shoe was l

ON 'CHANGE.

Tuesday, Aug. 16th 1892.

The gold market opened very firm this morning and advanced forty cents. There was a stirring demand from certain quarters and an active speculation ensued in which about eighteen thousand ounces changed hands; the price opened at $52.50 and closed hard as a nut at $52.90, say 225103/% premium. Seven hundred sovereigns were sold, opening at $16.30 and closing at $16.43, or 220% premium.

Patriotic Bonds were very dull, but steady at 72. Internal Bonds were firm and in slight demand at 68.20 for cash, 68.30 for to-morrow and end of month, and 68.80 for end of September. A fair amount of Spanish Bank shares changed hands at 106 and Obligaciones of the Banco Constructor de la Plata at 90 cents each. Catalinas were firm at 10.50 and 10.60. Municipal Lottery Bonds rose to 61 for cash and 62 for middle of next month. La Plata Cedulas tottered at 29.20.

Exchange ruled dull and weak this morning. Discounts were very easy.

Cheques of the Provincial Bank of Buenos Ayres were done at 39½% discount. Cheques of the National Bank were at a stand-still. Bonos of the La Plata Mortgage Bank were in fair demand at 18.50 and 18.60% of their face value.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

On next Friday a small estancia in the Avarias Department of Paysandu, 2,255 square squares, will be sold at auction by Gomensoro by order of the judge. The land is first class and adjoins the Mauá estancia, and as land about there is going so very cheap the auction may interest some of our readers in this market.

It is rumoured in Montevideo that the shareholders want to liquidate the Spanish Bank down there. The balance sheet for last month shows well; the emission is only 192,440, the deposits 2,735,826, the discounts 4,500,000, the cash on hand 436,648. We compliment our old friend Mr. Tink the manager on the management. The Italian Bank of Uruguay, which is a much larger concern in the way of capital, has $4,500,000 deposits, $2,609,000 various debtors, $222,000 emission and circulation and $465,000 cash, but the Banco de Londres stands first of all the Banks in Montevideo; its deposits amount to $5,485,114, its discounts 5,078,284, its emission 2,081,350, and its cash on hand 3,988,479, its capital is only the same as that of the Spanish Bank. It would seem that the total emission in circulation in Montevideo is but 2,500,000, against which the banks hold a gold reserve on hand of 4,800,000.

The superabundance of small 20 and 50 cent notes in this market is now becoming an inconvenience, since none of the Banks will accept them from their customers in deposit for any large amount; the result is the retail dealers are getting blocked up with them, and complaints are so general that some steps must be taken to meat the difficulty. Perhaps if the Caja de Conversion would fix two days a week for the exchange of these small notes for larger ones, it would prove a convenience to the commercial community.

Mr. Felix Soriano, the President of the Provincial Bank of Buenos Ayres, has published an important letter on the vexed question of resuming discounts by the branches. A measure which, he says, in the opinion of the lawyers of the Bank in perfectly legal, and he thinks that the editors of the newspapers who have attacked the measure do not understand it. He says that in the 44 branches of the bank there are 4,000,000 cash on hand; that this money was at first considered necessary to hold for bills drawn on the branches and for judicial deposits, but now with the experience that the directors have they find that this money ts not required. He says that to pay it away to the creditors would be folly, since it would not amount to 5%. He says that 'Deudores morosos' owe the bank 59,000 000 in paper and 3,300,000 dollars in gold, and that a good deal of this money may be collected if the debtors are able to resume business with the bank, which shows a surplus of assets over its debts of 66,500,000. We should certainly like to know the present market value of these assets and in what they consist. The four millions which the Bank holds, when spread over its 44 branches is not a very large sum to recommence the business of discounts any measure, however, calculated to resusitate the Provincial Bank will meet with the fullest market sympathy, but the debt due to the Caja de Conversion ought to be paid off as quickly as possible, and as the Bank can liquidate the amount in bonds of the Empresito 1891, it is strange that some of this money has not been applied to that purpose. We note that the National Bank, which is in liquidation the same as the Provincial Bank, amortized the other day a large amount in Empresito bonds, which the Credito Publico at once cancelled and destroyed.

With much pleasure we state that there is every probability that the firm of Messrs John E Clark and Company will be turned into a joint-stock company of which alll the creditors will be shareholders. This will be a most satisfactory arrangement, both for Messrs Clark and their creditors.

Messrs Trebino and Company, who are the great coal brokers in this market, state that in the months of May, June and July 250,000 tons of coal have arrived, which, at $8 the ton, makes $2,000,000 gold, and they very properly remark that with such enormous arrivals it is not surprising that coal has been sold as low as $5¼ gold on board in port and $20 paper; in Rosario a cargo of coal in bricks has been sold at $33 gold on board. The following list for the month of July will interest this market.

The last balance-sheet of the Banco Nacion shows the wondrous growth of this institution. The discounts at the head office and at the branches have jumped in a single month from 28 to 41 millions, which is most astonishing and must be attributed only to the advances made by the bank for the Empresito Bonds of 1891.

The following sales of property in Belgrano are reported :—

Don Miguel Corvalan has sold his house in Belgrano with 2,086 varas of land, corner of Calles General Corvalan and sin nombre, for $32,500, land being estimated at $5 the vara

Don Antonio Boggio has sold a lot of 1,000 square yards of land adjoining the above at $6 the vara.

Mr. J. Clark Curtin has sold a lot of 2,086 yards of land in Belgrano, corner of Calles Once de Setiembre and San Rafael, at $3 50 the vara

The sale of the large estancia in the department of Paysandú called La Constancia is one of the largest estancia sales reported in the Banda Oriental for some time. The land measures 11,000 squares square and was bought some years ago by the renowned and unfortunate Doctor Reus, who, during his short and fitful career, burst up the half of the Banda Oriental; he mortgaged the estancia to the Montevidean Mortgage Bank, which has now sold it to Messrs. Sanguinetti Brothers for $159,500 gold. We believe that Reus intended the place for a colony.

Mr. Benjamin Bohm will sell on Monday after the first ring 697 shares of the Old Gas Company, 26,000 bonds of the Mortgage Bank of the Capital, 10,000 Municipal bonds October 1882, and 100 shares of the Buenos Ayres Tramway Company 80% paid up.

The death of Mr. Hutz, the well-known German exchange broker, has thrown a gloom over the Bolsa. Deceased was universally esteemed, and he died at the comparatively early age of 40, from an attack of influenza.

We have on many occasions referred to the development of sheep-farming in the very far South, and the arrival last week of a large lot of Lincoln rams from Mr. J. MacDonald's estancia on the Salado caused much attention at the Plaza Constitucion amongst the wool brokers and barraqueros when it was known that these rams are going to Mr. Jameson's sheep-farm in the Santa Cruz territory, which is now getting as thickly stocked with sheep as the partido of Pergamino.

Mr. onstenla has sold at auction the following properties, belonging to the testamentaria of the late Don Carlos Eguia :—

Calle Maipu 774, upset price 38,000$, sold for 38,500$m/n Buyer, Dr Bosche.

Calle Esmeralda No. 970, upset price 20,000$, sold for 33,500$m/n. Buyer, Mr. A Prat.

Quinta in Flores, near Floresta, upset price, 13,000$m/n, sold for 18,000$m/n. Buyer, Mr. Domingo Davila.

Mr. Modesto Pascualletti sold yesterday at auction a "manzana" of land in Calles Entre Rios and Caseros for $114,586m/n Buyer A. Rivera.

Messrs Collet and Llambi sold yesterday 13,000 square metres of ground in Belgrano, about a square distant from the Rosario Railway station, at 1,20 and 1 25$m/n per metres. Buyer, Mr. A. S. Macnally.

Advices from the far South report heavy rains and splendid prospects for farmers. The grain movement at Bahia Blanca is becoming important ; about five thousand tons were shipped from that port last month, making 14,000 tons of wheat shipped since the beginning of the season.

Several telegraphic transfers were mentioned in the market to-day at 46d. on London. A good deal of exchange is being done in this fashion of late.

Mr. Ignacio Sanchez has sold in his estancia La Sirena, in the district of Dorrego, 1200 3 year-old steers at $24 per head and 1500 cows at $7 each, cash. Buyer, Mr. D. Amarante.

Mr. Norberto Quirno Pizarro has sold 3000 cows "al corte" at $12m/n per head. Buyer, Mr. Francisco Nocetti.

Four hundred steers are reported sold in Lincoln at $24 each ; 300 were sold in Chacabuco at 22$ each ; buyer of the latter, Mr. Gonzalez Segura.

Telegrams from Montevideo announce that the Government has reopened negotiations with some new syndicate to start a new National Bank. The Uruguayan papers, connected with the Government, state that some startling financial novelties are on the 'tapis'. We very much doubt if money can be found in Europe for a new bank in the Banda Oriental.

Mr. T. Lavagno, of Milan, has applied to the National Government for a stretch of country of sixty to one hundred miles, fertile soil, free of natural obstacles such as mountains, under a mild climate, more or less like that of the South of Italy, to start colonies. Mr. Lavagno would like also plenty of water on the land and the vicinity of a line of railway. Should the Government grant the land, Mr. Lavagno offers to divide it into small lots and to sell them to agricultural families that would leave Italy for the Plate.

It was understood to-day that gold was being purchased and exchage taken for certain high quarters. As soon as these requirements are met, the market will resume its normal march.

The gold market ruled steady at the second ring ; about eight thousand ounces were sold for to-morrow : the price opened at $52.90, fell to $52.70, and closed at $52.90, same price as in the morning. A few sovereigns were sold at 16.41 and $16.42. One hundred thousand Patriotic Bonds were sold for to-morrow and the price advanced to 72.20. Internal Bonds fell to 68 for to-morrow and end of month, and 68.60 for end of September. Catalinas rose to 10.70 and obligaciones of the Banco Constructor to $1. La Plata Cedulas were weak-kneed ; there is a suspicion that this stock is now coming out from Europe to be sold here.

The great news of the day was the starting of The Buenos Ayres Meat Supply Company Limited, of which our old friend Mr. Edward Casey is the president. We purpose visiting the establishment on Thursday and giving our readers a full description of the whole concern. Only mestizo cattle will be slaughtered, which will be kept in special 'potreros' of the Company, and the cattle will be killed in special shambles (Chicago style). The beef will be kept in cool rooms for a day or two and then sent in frigorifique waggons from Espeleta to this city. Only the best English sheep will be slaughtered, and English mutton as good as to be got in London will be supplied. Meat will be sold wholesale and retail; the establishment for the sale of the meat is at the corner of Calle Venezuela and Paseo Colon, where the active president of the Company will superintend everything from 6 a.m. till sundown. We promise him the custom of the whole city. He has got hold of the greatest and best business in the Plate, surpassing by far even the Curumalan estate business. We congratulate Mr. Casey on his having left Montevideo and settling down here to reconstruct his house, in which he will most assuredly succeed.

The arrivals of cereals in the Plaza Once were very heavy this morning. Maize ruled firm, over $7 per 100 kilos for local consumption. Wheat was also in stirring demand for local requirements. French wheat was sold this morning at $8m/n per 100 kilos ; the parcel was from Pehuajo. The export of maize continues on an active and large scale, but affairs are slackening as holders ask prices that are altogether too high.

Some fresh operations were reported to-day in sales of wool in deposit ; prices are falling still. Wools that were deposited when their quality could have fetched $9m/n per 10 kilos cannot command over $8m/n baled.

Sheepskins are moving off fast. The Magamet buyers make a clean sweep of everything. A contract is announced for a very large quantity of sheepskins at reserved price; one of the stipulations is that the skins must be from animals slaughtered for freezing and export to Europe. The contract is one of magnitude. A French export house is the buyer.

Consignees complain very loudly of the scarcity of rolling stock on the Western Railway. If this take place at present in the dull winter months what must happen in the busy seasou? We hope the manager of the line will take steps to impress upon the Board of the Company the necessity of supplying several thousand more waggons.

Mr. Lix Klett, Director General of the Argentine Committee of the Chicago Exhibition has collected and classified the following exhibits of produces :—

LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

Henri Deux vestibule. Handsome study, and small study. Large fencing saloon. Splendid dining-room with leather chairs. Glass, plated ware, porcelain etc. Horses, carriages and plants.

In the upper storey there is a grand drawing furnished in Louis the Fourteenth style, royal curtains of silk plush, chiffoniers, an imposing vestibule ; study, set of girl's bedroom furniture by Maple. Imposing bedroom suite of solid walnut, with canopy and silk curtains Louis XV style. Oil paintings, and the regal furniture and ornaments of all kinds that adorn the

Palace at 2626 Calle Santa Fe,

aud which I will sell by order of the Commercial Judge, Dr Luis Peyret, in compliance with the following

Judicial Edict

By order of the Commercial Judge of the Capital, Dr. Luis A. Peyret, it is made known that the public auctioneer Charles Olmi will sell at public auction on Tuesday and Wednesday, 16th and 17th of August, at 12 noon, all the furniture, oil paintings, embargoed in the house

Santa Fé 2626

belongings of——in the lawsuit against him by——. To see the list of furniture embargoed apply to the Secretary of the Judge, George F Patiño, Charcas and Rodriguez Peña.

The furniture on sale represents an immense value, probably has cost over 200,000 dollars. It is a grand opportunity to obtain first-class furniture.

The house will be on exhibition day and evening from Sunday.

Some of the oil paintings and water colours are notable; the painters are :

Veronesi, Milerio, Saint Bee, Giudici, Zanotti, Fritc, Corradi, Paganini, Pollani, Weber, Ferrari, Deileucq, Collani, Letto, Martinez, Baratti, Flori, Puratini, Roviani, Giraud, Capurro, Capoone, Cavalotti, Prodasi, Perotti, Meunier. Cesari, Alvarez de Toledo, Micchetti, Mercks and Van der Haegen.

Bronzes and marbles by Moliere, Moreaux, Laurent, Santa Coloma and of Brussels Art Exhibition.

The plated ware by Reed and Barton. The wash-stand set in solid silver. The carpets: Smyrna, Moquette and Brussels; that is to say of the very best,

All the furniture regal, from top to bottom.

The tapestry superb.

A capital invested in notable chandeliers and brackets.

Baths and lavatories splendid

Crystals and knick-knacks all of the first class.

Carriages, horses and plants.

Santa Fé 2626

ON TUESDAY 16 AND WEDNESDAY 17

At 12 noon

Catalogues can be obtained in the palace itself and in my offices

566--PIEDAD--566

Ladies, connoisseurs and all interested in first-class objects ought to visit this unique mansion if only to inspect its details.

N.B.—The importance of this sale is superior to the auction which took place on February last, of all the furniture of the late Charles M Schweitzer, by the same undersigned auctioneer, and that lot furniture was considered as the most valuable introduced in the Republic.

For further details please apply to my mart

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.
